

An exceptional education. A life-changing experience.

The University of Southern Indiana's AACSB-accredited Romain College of Business has expanded its Master of Business Administration program to include a concentration in Artificial Intelligence (AI) beginning in Fall of 2025. The Artificial Intelligence concentration develops proficiency in AI-driven business strategies, decision-making processes and AI tools for business innovation and efficiency. The program offers cutting-edge AI skills tailored to today's business landscape, enabling managers from any background to stay competitive by mastering tools and techniques in high demand. USI's MBA program allows you to elevate your future with a powerful, practical and affordable degree. Designed for working professionals, our program can be completed in less than a year and offers flexibility with both online and in-person classes. With a cost of less than \$14,000, USI's MBA delivers top-tier business education without breaking the bank. In addition to AI, choose from nine career-focused concentrations tailored to the needs of your experience including:

- Accounting
- Data Analytics
- Engineering Management
- Healthcare Administration
- Human Resource Management
- Marketing
- Project Management
- Supply Chain Management
- General MBA

Our program has earned consistent accolades such as a Top 20 ranking from Fortune Education for Best Online MBA Programs in 2024 and a spot on Poets & Quants list of the Top MBA Programs in the United States and Europe to offer a concentration in AI. Whether you're advancing your current career or pivoting into a new journey, you'll find the support and structure to make it happen – on your schedule. "This MBA program was exactly what I was looking for in terms of content, reputation, and affordability," said Julie Tillman,

MD, M'24. "As a full-time OB-GYN physician, I was able to find time to complete the degree and not feel overwhelmed." Don't wait to invest in yourself. Apply today and start building the future you deserve.

Online. On Your Way.

Earn your MBA from the University of Southern Indiana and advance your career on your terms.

The Romain College of Business' Top 20 Online MBA program (*Fortune Education*, 2024) offers six start dates a year. Choose from nine specialized concentrations—including Data Analytics, Healthcare Administration and AI—designed to affordably accelerate your future.
